Maximize brand awareness and show your support of the entomological sciences. As an ESA Corporate Partner, you will receive recognition and visibility, setting yourself apart from your competition.

The three-tiered ESA Corporate Partnership Program provides you with the flexibility of selecting from a variety of options depending on your budget and marketing goals. All partnership levels offer complete marketing packages including e-mail blasts, online advertising, print advertising, digital ad retargeting, leadership access, complimentary memberships, ESA Annual Meeting registrations, and more.

“Today’s ESA is changing the way that people view insect science as we support efforts to feed the world and protect us all from vector-borne diseases. Our membership is strong and growing and includes thousands of students, postdocs, and early career professionals who are your future workforce as well as the future of the field. ESA is grateful for the support of our partner organizations, who play an incredibly important role in supporting the discipline we all serve.”

■ CHRIS STELZIG, CAE, ESA EXECUTIVE DIRECTOR

ADDITIONAL OPPORTUNITY

The Professional Advancement Career Training (PACT) Initiative helps graduate students and post-doctoral researchers develop the leadership and soft skills necessary for success in careers outside of academia. By sponsoring this new initiative you will be able to provide mentors from your company to engage in all of the activities that include one-on-one mentoring, monthly webinars, monthly facilitated group meetings, and lead small groups discussions with the participants.

The cost for participation from corporate participants is $1,000 per mentor, with each company permitted and encouraged to support up to five mentors.
