

It's a Bug's World is an Insect Expo

Presented by the Entomological Society of America, Eastern Branch

The Entomological Society of America (ESA) is the largest organization in the world serving the professional and scientific needs of entomologists and individuals in related disciplines. Founded in 1889, ESA has nearly 7,000 members affiliated with educational institutions, health agencies, private industry, and government. www.entsoc.org

We thank all the exhibitors who came today to share their knowledge of the science and wonder of insects and other invertebrates. In the words of E. O. Wilson, they are "the little things that run the world". We thank the Entomological Society of America, Eastern Branch, Entomological Foundation, and Cowboy Cricket Farms for their support.

It's a Bug's World Co-Chairs:

John Cambridge, Philadelphia Insectarium and Butterfly Pavilion

Faith B. Kuehn, Delaware Department of Agriculture
