PBT-based award suggestions for 2017

Professional Awards

1. ESA Honorary member

The purpose of Honorary Members is to emphasize the high value that the ESA places on service by its members. This award recognizes extraordinary service by ESA members who have had significant involvement in the affairs of the Society for at least 20 years.

Suggestions: __________________________________  __________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:_________________________

2. Fellows of the Entomological Society of America

The purpose of this award is to honor individuals who have made outstanding contributions to entomology and thereby highlight their career accomplishments to inspire all entomologists. They need not be members of the Society.

Suggestions: __________________________________  __________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:_________________________

3. ESA Founders’ Memorial Award

The purpose of this award is two-fold: to honor the legacy of a scientist who made contributions that had a significant impact on the field of entomology and to bring attention to a current entomologist with outstanding credentials in a similar field who can present an informative and engaging lecture at the ESA Annual Meeting.

Suggestions: __________________________________  __________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:_________________________

4. Nan-Yao Su Award for Innovation and Creativity in Entomology

This award recognizes creative entomologist who have demonstrated the ability to find alternative solutions to problems that significantly impact entomology.

Suggestions: __________________________________  __________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:_________________________
5. ESA Distinguished Achievement in Teaching

The purpose of this award is to honor the role of entomological education as a basis for the entire discipline by recognizing an ESA member who is deemed to the most outstanding educator of the year.

Suggestions: ____________________________________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:__________________________

6. Recognition Award in Entomology

This award recognizes entomologists who are making significant contributions to agriculture.

Suggestions: ____________________________________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:__________________________

7. Recognition Award in Urban Entomology

This award recognizes and encourages outstanding extension, research, and teaching contributions in urban entomology, defined here in its broadest sense as the study of the biology and control of arthropods found in the home or surrounding landscape. This includes structural and wood-destroying pests and pests of ornamental plants, shade trees, and turf.

Suggestions: ____________________________________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:__________________________

8. ESA Recognition Award in Insect Physiology, Biochemistry and Toxicology

This award recognizes and encourages innovative research in the areas of insect physiology, biochemistry, and toxicology in the broad sense. The areas of research may include development, molecular biology, genetics, defense mechanisms, and other offshoots of physiology, biochemistry, and toxicology.

Suggestions: ____________________________________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:__________________________

9. Entomological Foundation Medal of Honor

The Entomological Foundation Medal of Honor was established in 2007 and it is the highest award presented by the Foundation. It is given only to those who have made outstanding contributions toward fulfillment of the Foundation’s mission or entomological outreach.

Suggestions: ____________________________________________________________

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:__________________________
**Early Career Professional Awards**

1. **Henry and Sylvia Richardson Research Grant**

The purpose of this grant is to provide research funds to postdoctoral ESA members who have at least one year of promising work experience, are undertaking research in selected areas of insect control, and have demonstrated a high level of scholarship.

Suggestions:  

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:

2. **Early Career Innovation Award**

This award honors young professionals working within the field of entomology who have demonstrated innovation through contributions within any area of specialization (research, teaching, extension, product development, public service, etc.).

Suggestions:  

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:

3. **ECP Teaching Award**

This award is given to a student transition or early professional who excels in entomological education.

Suggestions:  

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:

4. **ECP Extension Award**

This award is given to a student transition or early professional who excels in entomological extension.

Suggestions:  

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:

5. **ECP Research Award**

This award recognizes a student transition or early professional who has made outstanding research contributions to the field of entomology.

Suggestions:  

Willing to serve as a nominator: (Circle) Yes or No  If yes, name:

6. **ECP Outreach and Public Engagement Award**
This award honors a student transition or early professional working within the field of entomology who has demonstrated excellence, leadership, and creativity in outreach and public engagement.

Suggestions: 

Willing to serve as a nominator: (Circle) Yes or No If yes, name:

Student Awards

1. Lillian and Alex Feir Graduate Student Travel Award in Insect Physiology, Biochemistry, or Molecular Biology

The purpose of this ESA award is to encourage graduate students working with insects or other arthropods in the broad areas of physiology, biochemistry, and molecular biology to affiliate with ESA’s Integrative Physiological and Molecular Insect Systems Section and to attend the ESA Annual Meeting.

Suggestions: 

Willing to serve as a nominator: (Circle) Yes or No If yes, name:

2. The Larry Larson Graduate Student Award for Leadership in Applied Entomology

This ESA award recognizes Dr. Larry Larson’s role as a leader and pioneer in insect management and carries that legacy to the next generation of leaders in applied entomology.

Suggestions: 

Willing to serve as a nominator: (Circle) Yes or No If yes, name:

3. ESA Student Activity Award

Sponsored by Monsanto Company, this award will be presented annually to recognize a student for outstanding contributions to the Society, his/her academic department, and the community, while still achieving academic excellence.

Suggestions: 

Willing to serve as a nominator: (Circle) Yes or No If yes, name:

4. John Henry Comstock Graduate Student Awards

These six awards are given to one graduate student from each ESA Branch to promote interest in entomology at the graduate level and to stimulate interest in attending the ESA Annual Meeting.

Suggestions: 

Willing to serve as a nominator: (Circle) Yes or No If yes, name:
